Objective

Passionate and dedicated Java Full Stack Developer with hands-on experience in Java, Spring Boot, HTML, CSS, and JavaScript. Known for building efficient, scalable, and responsive web applications using modern Java-based technologies. Strong interest in expanding both front-end and back-end development skills while working with real-world enterprise-level projects. Seeking an entry-level opportunity to enhance technical expertise and contribute to impactful, high-quality software solutions.

Education

Apex University

Bachelor in Computer Application

Projects

P -Showcasing Skills and Project

GitHub GitHub

- **Built a CRM-based Education Management System** integrating a Java Spring Boot backend with a responsive frontend, implementing RESTful APIs for managing student records, course details, and real-time data operations.
- Developed a secure Login System using Java Spring Boot with JSP for the frontend, implementing authentication, session management, and user-friendly interface.
- Designed an interactive UI with smooth animations and an intuitive layout for an engaging user experience.
- Integrated clickable icons for LinkedIn, GitHub, and Instagram to enhance networking opportunities.
- Included a projects section with live demos and GitHub repository links for easy access.
- **Technology Stack: HTML, CSS, JavaScript, Java, Spring Boot**

Technical Skills

Languages: HTML, CSS, Basic JavaScript, Core Java, Adv. Java

Developer Tools: Github, VS Code, Vercel, IntelliJ IDEA

Backend: Spring Boot

Databases: MySQL, MongoDB

Experience

Prodigy InfoTech

Remote

Web Development Intern

Dec 2024 - Jan 2025

- Developed a fully functional **Tic-Tac-Toe** web application using HTML, CSS, and JavaScript, implementing an interactive UI and game logic.
- Built a **Weather App** that fetches real-time weather data from an API and displays temperature, humidity, and weather conditions.
- Designed and deployed a **personal portfolio website** to showcase skills, projects, and social media profiles with an interactive UI.
- Developed a **Stopwatch web application** with lap time tracking functionality and smooth UI animations.
- Worked on front-end development tasks, improving UI responsiveness and optimizing user experience.
- **Technology Stack - HTML, CSS, JavaScript, API Integration**
